

## Product Datasheet

### Anti-PCNA Purified GRP10447

<b>Description</b>	The mouse monoclonal antibody PC10 (also known as 3F81) recognizes PCNA, a 36 kDa conserved nuclear protein serving as a cofactor for DNA synthesis.
<b>Reactivity</b>	Human, Mouse, Rat, Chicken, Drosophila, Primate
<b>Tested Applications</b>	FC, ICC, IHC-Fr, IHC-P, IP, WB
<b>Immunogen</b>	recombinant rat PCNA
<b>Concentration</b>	1 mg/ml
<b>Storage</b>	Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.
<b>Note</b>	For research use only.
<b>Isotype</b>	Mouse IgG2a kappa
<b>Clonality</b>	Monoclonal
<b>Clone ID</b>	PC10
<b>Uniprot ID</b>	P12004
<b>NCBI</b>	5111
