

## Product Datasheet

### Anti-Neurofilament H Purified GRP10479

<b>Description</b>	The antibody NF-01 recognizes a phosphorylated epitope on heavy neurofilament protein (210 kDa intracellular antigen) of various species. Antibodies to the various neurofilament subunits are very useful cell type markers since the proteins are among the most abundant of the nervous system, are expressed only in neurons and are biochemically very stable.
<b>Reactivity</b>	Mammalian
<b>Tested Applications</b>	ICC, IHC-P, WB
<b>Immunogen</b>	Pellet of porcine brain cold-stable proteins after depolymerization of microtubules.
<b>Concentration</b>	1 mg/ml
<b>Storage</b>	Store at 2-8°C. Do not freeze. Do not use after expiration date stamped on the label.
<b>Note</b>	For research use only.
<b>Isotype</b>	Mouse IgG1
<b>Clonality</b>	Monoclonal
<b>Clone ID</b>	NF-01
<b>Uniprot ID</b>	P12036
<b>NCBI</b>	4744
