

Product Datasheet

Mouse purified IgG (10 mg) GRP12720

Species/Host	Mouse
Form/Appearance	Liquid, 0.2 µm filtered
Storage	Store at 2-8°C.
Note	For research use only.
Purity	Purified IgG
Application Notes	Additional Information: Mouse IgG is provided in 10 mM sodium phosphate, 0.15 M sodium chloride, pH 7.2. 0.05 % sodium azide is added as preservative. This immunoglobulin preparation can be used as a negative control for immunoprecipitation (IP). Antibody will react with all IgG subclasses. Background: Purified mouse IgG contains Protein A purified mouse IgG from normal serum, e.g. serum of non immunized animals and is excellent for use as blocking reagent in immunoassays.
