

Product Datasheet

Ephrin B1, B2, B3 (RABBIT) Antibody GRP3956

| | |
|----------------------------|--|
| Description | Anti-Ephrin B1, B2, B3 (RABBIT) Antibody |
| Species/Host | Rabbit |
| Reactivity | Human, Mouse, Frog |
| Conjugation | Unconjugated |
| Tested Applications | ELISA, IF, WB |
| Form/Appearance | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2 |
| Concentration | 1.05mg/mL |
| Note | For research use only. |
| Isotype | IgG |
| Clonality | Polyclonal |
| Source | Anti-Ephrin B1, B2, B3 antibody was prepared from whole rabbit serum produced by repeated immunizations with a synthetic peptide corresponding to C-terminal portion of human Ephrin B1, B2, B3 conjugated to Keyhole Limpet Hemocyanin (KLH). |
| Uniprot ID | P52800 mouse B2 |
| Entrez | 16197 |
| Dilution Range | ELISA: 1:10,000-50,000,IF Microscopy: 1:5000,Western Blot: 1:1000 |
